MOMENTUM
TRANSPORTATION & HAULING LLC

1. Corporate Overview

Momentum Transportation & Hauling LLC is a Columbia, South Carolina-based transportation, commercial freight and hauling company serving the logistics needs of manufacturers, distributors, construction contractors, commercial enterprises and regional businesses.

I-20
I-26
I-77

Strategically located near Interstate 20, Interstate 26 and Interstate 77, Momentum focuses on connecting businesses with freight transportation, equipment hauling, cargo delivery and construction logistics solutions throughout South Carolina and the southeastern United States.

Our business philosophy emphasizes dependable transportation execution, responsive dispatch coordination, professional service, cargo safety and clear communication.

Transportation and hauling solutions designed around your business needs.

MOMENTUM
TRANSPORTATION & HAULING LLC

2. Mission

To move our clients' businesses forward by delivering dependable, safe and transparent transportation and hauling solutions through operational discipline and honest communication.

3. Vision

To become one of the Midlands' most trusted regional commercial transportation providers, recognized for professional logistics capabilities, strong safety standards, responsive service and respect for drivers and customers.

**Mission and vision statements are proposed on the website and remain subject to management approval.*

4. Core Transportation & Hauling Services

4.1 Commercial Freight Transportation

Full truckload and regional dry van transportation for commercial and industrial customers.

Website-listed cargo categories include:

- Palletized commercial freight
- Finished industrial products
- Building materials and dry goods
- Corrugated packaging and paper products
- Retail and distribution shipments
- Manufacturing components

The website describes 53-foot air-ride dry van transportation, E-track cargo securement systems, and scheduled commercial freight movements.

4.2 Commercial Hauling & Machinery

Transportation solutions for industrial machinery, construction equipment and specialized commercial cargo.

- Flatbed transportation
- Step-deck transportation
- Lowboy transportation
- Equipment relocation

Including coordination for oversized shipments where applicable. Specialized transportation arrangements are subject to appropriate equipment, permits and operational confirmation.

4.3 Cargo Van Transportation & Delivery

Flexible cargo van transportation solutions for businesses requiring smaller-volume commercial deliveries.

- Local and regional commercial deliveries
- Contractor tools and supplies
- Warehouse-to-business transportation
- Building material deliveries
- Scheduled business distribution
- Expedited and dedicated cargo van requests
- Multiple pickup and delivery locations

4.4 Construction Transportation & Hauling

Project-oriented transportation solutions supporting construction developers, general contractors, industrial projects and building suppliers.

Pre-Construction Support	Transportation coordination for aggregates, site preparation supplies, equipment mobilization, temporary facilities, construction materials and initial development requirements.
Active Construction Support	Scheduled deliveries of building materials, structural supplies, equipment, tools and other construction-related cargo.
Project Logistics Coordination	Transportation planning for recurring material deliveries, equipment relocation, multiple jobsite requirements and construction-phase scheduling.

4.5 Regional Corridors & Port Access

Momentum's website identifies regional transportation routes connecting Columbia with major commercial and logistics markets.

I-77 Corridor
Columbia — Rock Hill — Charlotte
Focused on industrial freight, commercial distribution and building supplies.

I-26 Corridor
Columbia — Charleston — Greenville/Spartanburg
Focused on regional freight movements, port-related transportation and general commercial cargo.

I-20 Corridor
Columbia — Florence — Augusta/Atlanta
Focused on interstate commercial distribution and regional transportation.

Greater Midlands
Richland County and Lexington County
Focused on local commercial hauling, cargo movement and equipment relocation.

All routes, cargo types and transportation arrangements remain subject to operational availability and applicable requirements.

6. Operational Philosophy

Safety First
Prioritize road safety, appropriate vehicle inspections, cargo securement and compliance with applicable transportation regulations.

Reliable Dispatch Coordination
Emphasize preparation, scheduled pickup and delivery windows, and direct communication regarding transportation assignments.

Transparent Communication
Provide customers with clear information about service arrangements, transportation schedules and quotation requirements.

Professional Accountability
Promote responsible handling of freight, customer requirements and transportation documentation.

Customer-Centered Service
Develop transportation solutions around the commercial and operational needs of each customer.

Strategic Location and Service Coverage

Primary Operating Market: Columbia, South Carolina
Momentum's location provides access to South Carolina's major interstate transportation network.

The website highlights connectivity with **Charlotte, Charleston, Greenville, Spartanburg, Rock Hill, Florence, Augusta** and **Atlanta.**

The company presents regional logistics and hauling solutions centered on the Midlands and southeastern transportation corridors.

Customer Service and Dispatch

The website identifies a direct dispatch contact model intended to simplify customer communication and freight coordination.

Customers may inquire about:

- Freight bookings and transportation capacity
- Cargo van deliveries
- Heavy hauling and machinery movement
- Construction logistics arrangements
- Pickup and delivery scheduling
- Quotations and commercial transportation requirements
- Billing and general business inquiries
